

How do you experience the use of a telepresence system?

Your child has been connecting to school via the telepresence system for some time now. To get a good overview of its use, please reflect on your impressions and perceptions of your child's use of the system at home.

General questions

- 1) Do you remember the first time your son/daughter was connected to his/her class via a telepresence system? What was that like for you?
- 2) How do you experience your child?
- 3) Do you know how often your son/daughter is connected?
- 4) Does your child talk about it afterwards?
- 5) Did/do you notice any differences from your child's earlier school narratives? Which ones?
- 6) How do you experience your child dealing with school duties (homework, tests/schoolwork)?
- 7) Can you identify any differences compared to when your child went to school? Which ones?
- 8) Are there situations in which you are particularly happy that your child is connected to the school via a telepresence system?
- 9) Are there situations that you experience as difficult in this context?
- 10) Is there anything you would like to see in this context?
